

Use an
Automatic
SHUTOFF
Nozzle.

A running hose is worse than a runny nose. At least when it comes to California's water future. Water is in limited supply in California and it's up to each of us to conserve water. Every little bit helps. Using a hose shutoff nozzle when you wash your car or water the garden can save five to eight gallons with each use. That, California, is a nice save! For more easy tips on how to save water in California, visit: www.wateraware.org.
