

A photograph of a person's legs and feet in blue pants and brown shoes, sweeping a concrete driveway with a broom that has a wooden handle and a green bristle head. The broom is positioned diagonally across the frame, with the bristles resting on the ground.

Use a Broom Instead OF A Hose.

Remember that broom in the corner of the garage? Reach for this instead of the hose to clean the driveway and you'll save eight to 10 gallons a minute. That's a "nice save" for California's water future. It's important for each of us to save water, every day. Water is in limited supply in California. Using a broom will help us brush away our worries about a water shortage. For more easy tips on how to save water in California, visit: www.wateraware.org.
