

Double Up IN THE Tub TO Save Water.

Californians know how to come clean when it comes to protecting our most precious resource. It's up to all of us to save water. California needs every drop. There is a limited supply to drink, grow our crops or even fill a bathtub. Your "nice save" counts today and with future generations. A shorter shower or doubling up in the tub saves 5 gallons a day. For more easy tips on how to save water in California, visit: www.wateraware.org.
